DETAILED ACTION

This Office action is in response to the application filed December 26, 2006.

1. The rejection under 35 U.S.C. 102(b) as being clearly anticipated by ZAMPINI et al is **withdrawn** in view of the amendment canceling claims 1, 45, 7, 18-20 and 22-24.
2. New grounds for rejection are made based on an updated search.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 25-30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by BOUTET (5,795,708).

The claimed invention is drawn to the following:

25. (previously presented)

An antireflective coating, comprising:

a base material; and

a multi-layer mirror.

BOUTET anticipates the claimed invention wherein a dichroic mirror antihalation layer is disclosed in a film with a base layer, see the Abstract and Figs. 1-4. The figures disclose an antireflective coating comprising a base material and a multi-layer mirror, which meets the claimed invention above. Here a dichroic mirror possesses at least two layers wherein one of the layer is a base and the other is a layer which is selective as to the reflectance and absorbance

to reflective desired wavelengths and in this disclosure, the dichroic mirror layer functions as an antihalation layer absorbing particularly desired wavelengths.

5. Claims 12-14 are seen as allowed.

None of the prior art references of record disclose or claim the recited method as claimed in claim 12.
